The Piccadilly Blucher low shoes are made of light calf, hid or patent-leather vamp and hid top. Patent leather has come to stay, and few shoes are made in which it does not figure as tips, vamps or facings. Uppers of vesting cloth—that is, black cloth with small brocade figures it. figures in it-are the proper things. All the shoes have long tips, and the tendency is towards neat, plain styles. Russet shoes will be worn in the same shapes and the russe leather will be dark-about chocolate color Russia leather should be oiled every three weeks to prevent it from cracking. A word as to the mistaken beauty in overgaiters or spats. Women should never wear them, for iseless. The foot clad in an overgaiter looi bulky and large. With low shoes on a rainy o muddy day or in extremely cold weather for the sake of warmth overgatters are allows ble. Leather laces in shoes form a breach o taste that is absolutely unpardonable. Cloth laces, and cloth only, should be wern, and these must match the shoes. Now, as to patent leather. While it is the most fashionable material for shoes, it is absolutely rulnous to the feet if the shoes are too right. When buying patent-leather goods always have them large enough, for this material will no stretch. Red slippers, and even red Oxfords, will be worn to a considerable extent. The are very excellent for house wear, but it b questionable taste to wear them in the street In rural and seaside districts the wearer cal be forgiven for using them as walking shoes, but, strictly speaking, their squeak should

FOR BOYS AND GIRLS. Suggestions for Building a Ship-

A Little Tea Party. Here, boys, is a good way to build a ship Model it first in thin, tou h cardboard. For

never be heard outside the house.

tools you will need a sharp penanite, a Tsquare, giue-pot and giue and some pins Design the ship first on ruled paper, as in diagram, using the T-square for correctness The "goleg away" costume of a recent Then place the patterns on the caraboard and out out with knite. Trace your half-deck plan on one side of line; turn pattern over It is rather a pretty idea to give a baby girl and trace the other half. Do the same with the body seed has, a half-model of one of the christening robe, and is always useful which is given in the diagram. These body sections, you must remember, are of different sizes, to fit in their proper places in the keel The illustraticus will suggest the manner in which the pieces are put together. For planking for the hull use cardboard

strips shaped and trimmed. Fix the planking to stem and stern and body sections by means of g ue, and keep them in position till dry with pins driven through at all points of contact. Atterwards remove the pins. Pres each plank well againt the edge of the precoding one; a ucceing out all superfluous glue When you know how to make a cardocard on how they are worked. Whites of eggs. whip you may follow the same lines and make whipped till very stiff, are by some people a wooden ship. You will need more took den ship. You will need more tools and it will be well for you to select white of ellow plue half an inch thick, planed.

> Nellie's Visitors. " May I offer you some tex? Come, now, have a cup with me! Gladly will I welcome you-Make yourselves at home, now do."

"Thank you, thank you, Mrs. Nell," Answered Kate and little Bell; · Very pleased we'll be to stay

And take tra with you to-day."
